1. G. 2523-5 d 20.11.03 to the Comptroller, the Palace Controller, and the Private Secy. to H. H the Maharaja of Mysore
Sanctions the appointment of an additional clerk on Rs 30-4-50 to the Office of the Private Secy. to H. H., and appoints A. Venkata Subbayya, Serishtedar of the Palace Motikhana for that post.

The Palace Mysore,

13th October 1903.

y dear Sir Krishna Murti,

am directed by His Highness to address you on he subject of the permanent appointment of a third clerk o the Office of the Private Secretary to His Highness he Maharaja in addition to the two Sheristadars already mployed.

I enclose a Statement of the work turned out g the past year, which I venture to think will com- favourably with any Office in the State employing two hands only, with only occasional temporary assistance The figures of papers dealt with give no indication of the work involved under the headings (a) (b) (c) &c., detailed below the tabular Statement, which is very considerable. The two Sheristadars have worked early and late for the last year to my entire satisfaction but it has been very difficult for them to keep abreast of the work. His Highness is also well aware of the work they have done and the long office hours to which they have been subjected, and he considers that an additional hand is now required. Since April last A. Venkat Subaya, She- ne Palace Motikhane has been doing work on e office. He is a capable office hand and the work well. His present pay is Rs 23, and considers that he might be appointed to the rogressive pay of Rs 30 - 4 - efer him to any other man, a Palace work, and has shown request that if you see no ps may be taken for the crea

new appointment and the posting to it of A. Venkat Subaya.

Yours sincerely,

Sd/- E. Maconochie.

Dewan's order

Secretary, General & Revenue Departments, will issue the necessary orders. This is not such a material revision of Establishment as to require reference to the Council. Saving and reappropriation may be possible from Yuvaraja's special establishment which has been greatly reduced.
